

## Appendix 1 to the Contract of Delivery

### Requirements for the Location of the FFS (Summary)

#### 1. WATER DEPTH

- Water depth at the location of FFS should be at least 3 metre (9 feet 10 inches).

#### 2. WAVE PROTECTED AREA

- FFS is allowed to be placed in wave protected aquatic areas where wave height does not exceed 0.5 m (1' - 7 7/10").

#### 3. MAXIMUM WAVE HEIGHT FOR OPERATION

- Operation is allowed at maximum wave height of 0.5 m (1' - 7 7/10").

#### 4. MAXIMUM WIND SPEED FOR OPERATION

- Operation is allowed at maximum wind speed of 10 m/s (32.8 ft/s).

#### 5. ICE ALERT

- Operation under ice conditions is not allowed.

#### 6. POWER SUPPLY FROM THE SHORE

- Voltage to be specified.

#### 7. AREA FOR THE FUEL TRUCK

- Area for fuel truck approaching should be equipped according to local authority requirements.

#### 8. PILING / ANCHORS

- The FFS can be fixed either to piles or anchors.

#### 9. PONTOON / BRIDGE

- For the access to the FFS, there should be a pontoon and/or bridge.  
Important note: these requirements are to be finalised when the Contract of Delivery is prepared.
